
Upcoming Events

21-22 March 2019
Washington, DC Datathon

Call for Participation is open!

The Archives Unleashed team is heading to the US capital to co-host its third Archives Unleashed event! We are excited to work with folks at the [George Washington University Library](#).

You can see our [Call for Participation here](#).

Travel grants are available. Please help us spread the word!

Submissions:

- An expression of interest (250 words);
- A short, one-page CV; and
- Indication of the need for financial assistance to travel to the event.

Submissions are due Dec 3, 2018 @ midnight (EST)
to archivesunleashed@gmail.com.

What's been happening?

- AUT 0.17.0 release - our most extensive release yet!
- Developed new Archives Unleashed Cloud learning guides
- Toolkit and Cloud documentation updates
- New Cloud features, including filtering plain text by domain
- Sustainability planning
- Lots of writing on our [medium blog](#)
- Co-hosted a datathon in Vancouver
- Our project has a new [YouTube](#) channel!

Vancouver Datathon

1-2 Nov 2018

The Archives Unleashed team recently co-hosted a datathon with Rebecca Dowson, [Simon Fraser University Library](#), and [SFU KEY!](#)

Check out out the [team projects!](#)

Featured Articles

Introducing AUT 0.17.0

The latest release of the Archives Unleashed Toolkit, or AUT, is in! The [0.17.0 release](#) is our most extensive yet with two major enhancements, five bugs resolved, 20 issues closed, and the incorporation of 26 pull requests. The developments and enhancements to AUT are reflective of testing out larger and more complex collections with [Archives Unleashed Cloud](#).

Rare Canadian Artifacts

Filtered Graphs

Web archives, visualized as networks, can provide a number of insights about the makeup of the topic. With the [Archives Unleashed Cloud](#), we try to show our users a graph of the link structure that forms from the websites in a web archive using websites as nodes (dots) and weblinks as edges (links).

[\(Read More...\)](#)

from the Early Web

Canadians were early adopters of the Internet, a fact that is overshadowed because our neighbours to the south were even more avid. In 1995, a year before the Internet Archive started, as many as [3.5 million Canadians](#) used the Internet, a population about the size of Toronto..

The Archives Unleashed Project, aim to make petabytes of historical internet content accessible to scholars and others interested in researching the recent past. Supported by a grant from the [Andrew W. Mellon Foundation](#), the project will develop web archive search and data analysis tools to enable scholars and librarians to access, share, and investigate recent history since the early days of the World Wide Web.
